OUR ADDED VALUE

FOR ENTREPRENEURS

- Identifying and limiting project risks
- Measuring cost dimensions
- Establishing company strategy and business plan
- Business Development, negotiations and fundraising strategy
- Long-term involvement, from the concept to exit
- Hands-on approach, interim and board member positions
- Mentoring and advisor backing: we have walked this path before
- Globalisation

FOR INVESTORS

- Investing with experienced professionals from the healthcare sector
- Increasing successful investment rate by decreasing intrinsic risks
- Helping investors with previous bad experiences investing
- Scouting for and building start-ups according to the VC investment criteria
- Senior executives as interim managers and board members of the portfolio companies

«In a few months of working with BHV Partners, our company has grown rapidly. We completed the crowdfunding round and now we are progressing with the product's commercialisation closing our first distribution agreement»

"The strategic approach of BHV Partners fostered the value and professionalisation of the start-ups we're jointly involved. The best kind of partner we could count on was UPV Tech Transfer Fund"

FOR RESEARCH CENTRES AND TECH TRANSFER UNITS

- New technology transfer units
- Assessing innovation processes
- Analysing of scientific and IP assets
- In-licensing and out-licensing services
- Hands-on creation of new companies
- Senior executives as interim managers of new companies

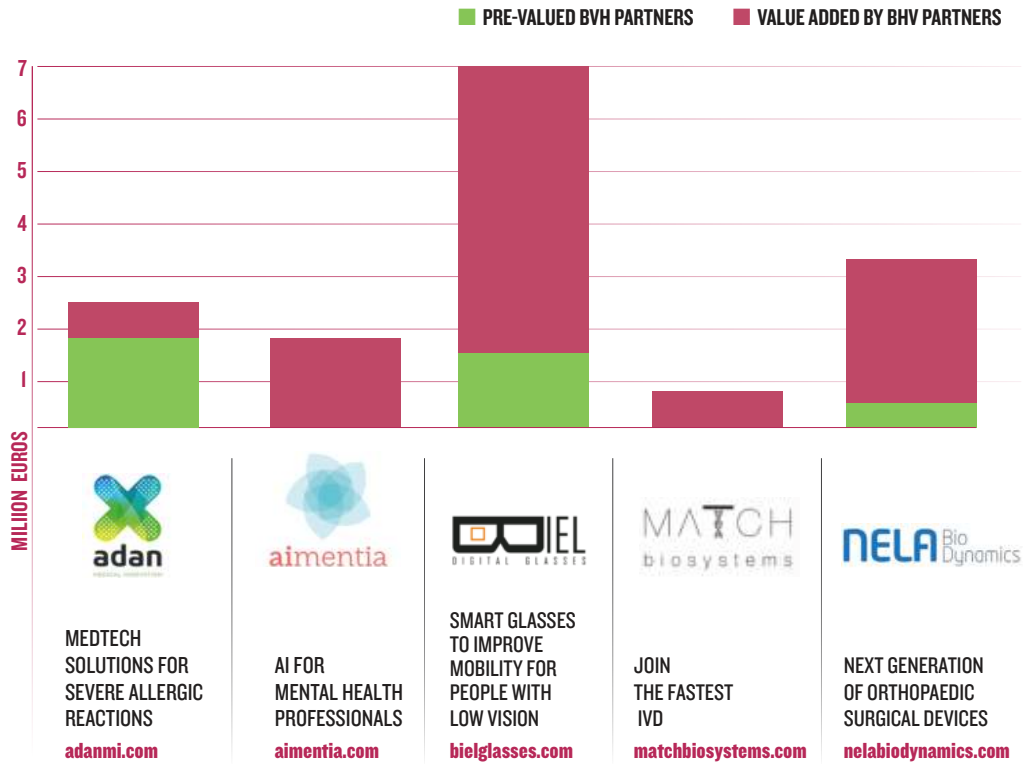

FOR CORPORATES

- Build-to-buy service
- Scouting for and screening opportunities
- Due diligence and investment valuation
- Innovation consultancy
- Analysing of scientific and IP assets
- Creating of corporate venture capital

«BHV Partners has put us in contact with people in the pharmaceutical industry who are interested in our technology, which would have been impossible for us to achieve on our own»

«The collaboration with BHV Partners was excellent for their commitment and expertise»
